Build a Web Page about freelancer portfolio

Objective

- Understand the basic concepts of Web Design (HTML, CSS)
- Understand web design guidelines and process which you can apply to real world web projects
- Able to create Layout using various techniques(float, position, flexbox, grid.....)

Specification

You are provided with a design mockup as a PNG-files:

1. studio (desktop).png
2. studio (tablet).png
3. studio (mobile).png

- Resources files are also provided in **resources** folder.

- You must replicate the design(spacing, icons, colors, images, fonts... may be different by your own choices in case they are not provided) in HTML & CSS (**CSS Frameworks/Libraries are not allowed, only icons/fonts are allowed**).

- Your website must be able to render correctly in Desktop and Mobile, tablet is bonus.
